About This Game

Face the last challenge - determine destiny!

A new threat casts its shadow over the Southern Isles. A mysterious demon, consumed by hatred, terrifies the population and pools his force against the coastal city of Setarrif. The dramatic situation exacerbates after a volcanic eruption in the mountains nearby. Thereupon the nameless hero joins forces with his strongest allies and courageously faces the new menace. Even after king Rhobar III was freed from the demons control, the struggle apparently is not over. The king already ordered his armies to conquer Setarrif, but so far no word from his troops, or the frantic population for that matter, has gotten through. Experience an all new adventure amidst demonic powers, political intrigue and inscrutable incidents – what's really going on in Setarrif?

If you accidentally hit the new game button which is four times larger then the continue button your save will be deleted. Poof, all of your work is gone. I will not be playing this game again.

This is one of those times where you feel like you could do a better job yourself. I mean, a giant reset button next to the smaller continue button is not a good idea. Am I the only one who sees that?

Accidentally hit the new game button aka reset everything button out of 5. Mindless fun with a touch of RPG and upgrades great little game. pretty good, but Lines by Nestor Yavorskyy are better.

only tweek of this game is a mechanic that you have to draw a line in single motion, quite problematic in pratice.

good one 6/10. excellent way to waste time, grinding through dungeons and gaining skills and new characters. Hats off to the developer, I hope they've got a sequel in them.. This will have to be my first negative review, and it's a shame.

Normaly with games like these I whip out my controller because it controlls smoother for me, it felt weird. So keyboard and mouse it is, nope still clunky as all hell, mouse just overshoots everywhere I want to look...

It just doesn't feel good, I even got a bit motionsick because of it.

It will be a thumbs down for me.. Gave it a shot and played map a few times. From that I can say I like the visuals of the game but the controlling of the card or whatever it is, is very difficult. best thing about this game is probobly the trading card. Sorry developer, but i do NOT recommend this game to my friends on steam.. amazing graphics,good playability really a good game from Senran Kagura Series. Dont mind any negative comments. This game is one of the best if not the best platformer ever made. If you want nostalgia then buy it and if you want an amazing game with challenging gameplay and fun platforming then buy it. Its definetly worth the money and time you are spending. Other companies need to take some notes from N. Sane Trilogy before they release a remastered game. To me , they knocked it out of the park with this game.. amazing for the time it was given i hope they contiune to make more epiesodes just a great short seires. Deffently a must watch for any MK fans.. This game is my favorite card game, it's extremely satisfying to play, perfectly paced, and extremely balanced. I have 50 hours on steam and I only wish i had a tracker on my phone, because there's a lot more on there. I've only ever bought the base game and it's a shame because I'd want to try others, but I'm still not bored of the base deck after 100+ hours. 10/10

Please add a key rebind option. I can't play this game with WASD. m.a pesh pe jokul vostru pt ka eh de kkt shi sa va da dhau la muye sa moara familia mhea de nu va i.au familia in shabe.....

. A little under 2 hours of Asako being awesome. It's pricy for the amount of content, but I'd be lying if I said I didn't feel satisfied at the end.

Definitely not a standalone deal. You'll need to read the first two mainline Grisaia VNs before this.. This game has no players, a very limited variety of weapons, and the building fase is WAY too short. It needs to be trippled. If this game actually had other players to play when you start it would be worth it. But there isn't . And it's not.. rift coaster review

Didn't know what to expect, haven't seen a roller coaster in VR before, absolutely excellent.

It had me gripping on to the back of the sofa. Terrific example for the mother in law when she's next over.

It's short but there's a fair bit of work gone into this, well worth the money.. best total conversion ever. i see why it won

. Same as the first game you are just a useless powerless loser it is so much fun being unable to do nothing.. Planets Under Attack is a real-time strategy game.

The gameplay mechanic of Planets Under Attack are simple and not very deep, but it's good, not too easy and need some time to master. You start with a planet, build up fleets and then set out to conquer neutral or\and enemy planets. But you have to make the right decision which planet to attack first and use tactics. The first level of the game could be easy, but when you play deeper into the game, there's when the fun begin.

The graphics of Planets Under Attack is cartoon, but that doesn't make the game a children game. The UI is good and well designed.

Planets Under Attack is another good and fun game. I recommend this.

Rating 8/10. Add please the graphics settings.
